IT.tamu.edu

IT Resources for Teaching & Research

+ Howdy Web Portal & Compass Student Information System

howdy.tamu.edu

The Howdy web portal connects you to many Texas A&M resources – all with one login. Howdy is the front door to the web-based Compass Student Information System. In the Howdy Instructor tab, upload your syllabus and CV, email students in your sections and submit grades.

+ eCampus

ecampus.tamu.edu

eCampus is the university-wide learning management system for developing and teaching courses in a hybrid format or completely online.

+ Instructor Technical Support & Training

its.tamu.edu | 979.458.3417 | itshelp@tamu.edu

Learn how to best integrate instructional technology into your teaching through no-cost, hands-on training or self-serve help resources.

+ Open Access Computer Labs

oal.tamu.edu

Faculty OAL accounts provide 2 GB of storage space, accessible remotely with the Virtual Open Access Lab. Your account lets you use classroom computers with over 150 software programs, roaming profiles and saved customized settings.

+ Classroom Technology

ims.tamu.edu

Technology-enhanced classrooms include computers, projectors, Sympodiums and more. Your OAL account and a reservation with Instructional Media Services let you log in to classroom computers with your NetID and password.

+ Videoconferencing & Streaming

u.tamu.edu/avt

No-cost, interactive communication options are available for classes, seminars and meetings.

+ Audio/Video Production

kamu.tamu.edu

KAMU's television and radio broadcast services support educational outreach by producing distance learning telecourses.

+ Supercomputing Facility

sc.tamu.edu

Advanced supercomputing resources and a staff of expert analysts assist faculty needing to perform large-scale computations for research and teaching.

+ Educational & Research Networks

u.tamu.edu/research_networks

Texas A&M's affiliation with state and national initiatives provides access to high-speed networks for education, research and communication.

Texas A&M IT Services for Employees

+ IT Resources for New Employees

IT.tamu.edu/files/ITforNewEmployees.pdf

Check out the Getting Started guide for information on IT resources at Texas A&M. Visit IT.tamu.edu for a complete list of services provided by Texas A&M Information Technology.

+ Help Desk Central

hdc.tamu.edu | 979.845.8300 | helpdesk@tamu.edu

We're open 24/7! Call us for answers to your computing questions.

+ Help Desk Repair

u.tamu.edu/helpdeskrepair

Bring in your personally owned computer for low-cost virus removal and other services.

+ Aggie Account Gateway

gateway.tamu.edu

Your NetID is a username for logging in to many IT resources. Set up Self-Service Password Reset to be able to reset your NetID password if you forget it.

+ Email

u.tamu.edu/allemail

Read how-to information on email accounts, mobile email and more.

+ TAMULink Wireless

u.tamu.edu/wireless

Connect your laptop or mobile device to campus wireless.

+ Telecommunications

u.tamu.edu/telecommunications

Get a voice mail user guide, phone manual and more.

+ Personal Cell Phone Discount

u.tamu.edu/celldiscount

Employees can receive 10–17 percent vendor discounts on personal cell phone plans.

+ Discounted Personal Software

software.tamu.edu

You may be eligible through your department to buy discounted software for your personal computer.

+ Information Security

security.tamu.edu

Help ensure security of campus systems, computers and your personal information.

+ Code Maroon

codemaroon.tamu.edu

Sign up to receive text message alerts during a campus emergency.
