

Suggested Cisco Phone Vendors

Texas A&M TechHub | 979-845-8300 | techhub@tamu.edu

Sirius Computer Solutions | 312-705-0177 | Austin Atkins austin.atkins@cdwg.com

Netsync Network Solutions | 713-218-5052 | David Monasmith
DMonasmith@netsyncnetwork.com; Leo Kamenker lkamenker@netsyncnetwork.com

PC Liquidations (Refurbished) | 904-800-3032 | Merrill Bryan
merrill.bryan@pcliquidations.com - <https://www.pcliquidations.com/p44680-cisco-8851-ip-gigabit>

Amazon or similar sites are also an option, especially for smaller phone orders. Be sure to pay attention to the model SKU offered by the vendors as Cisco does offer 2 versions of each phone model, one for our on-campus system and another for third-party support (cloud and other vendor phone systems). Make sure you are only purchasing a phone model with the SKU that matches exactly what we've listed to ensure there will be no compatibility issues.

CISCO: Cisco Options at a Glance – Telecom Approved Models

Phone Model #	Description	Accessories Model #	Description <i>(If you do not have PoE, you will need an IP Power Transformer)</i>
