Texas A&M Technology Services wants to make sure you’re set up for success with insider tips on the most important IT services at Texas A&M.

Howdy Portal - Manage Your Aggie Life

Howdy connects you to all your Texas A&M information. Need to access registration info, Texas A&M Gmail, grades, degree evaluations, financial aid or your bill? Log in at Howdy.tamu.edu.
• **Degree Planner** – Complete your Degree Planner early each semester (**cough cough** this semester’s due date is Friday!) – you won’t be able to register for classes if your Degree Planner is not complete! Don’t worry, you can always make changes later or schedule a meeting with your advisor if you need help.

• **My Finances** – Tuition is due a week after classes begin.

• **Class Registration** – Pro tip! Complete your registration worksheet before your scheduled registration time. This will help you plan your schedule and register quickly.

---

**Canvas - Your Digital Classroom Hub**

Canvas is the foundation of Texas A&M’s digital learning environment. Canvas allows your professors to communicate, post learning materials and assignments, as well as grades. This one-stop-shop helps students keep up-to-date with all of their grades, resources and due dates.
• **Courses** – Need a quick view of your class homepage? Click the “courses” icon and “star” a course to add the course to your dashboard.

• **Groups** – Visit the Groups page to quickly see all of your class discussion groups.

• **Inbox** – Quickly email professors or TAs directly. All Canvas notifications are sent to your Texas A&M Gmail account too!

---

**Help Desk Central - Tech Help When You Need IT!**

Help Desk Central is here to answer your tech questions anytime, day or night by phone, email, online chat or in person at [it.tamu.edu/help](http://it.tamu.edu/help).
